The purpose of this rulemaking is to satisfy the requirement that the Department's rules for the sanitary operation of public and semipublic swimming pools and bathing places be consistent with the new Arizona Department of Environmental Quality (ADEQ) rules for the design and construction of public and semipublic swimming pools. The Department will be proposing the water quality standards rules for natural and semi-artificial bathing places and artificial lakes consistent with ADEQ narrative and numeric surface water quality standards. These proposed rules will also prescribe reasonably necessary measures to prevent deleterious health conditions at public and semipublic swimming pools and spas and natural and semi-artificial bathing places and artificial lakes.

The Department will be proposing minimum standards that are consistent with voluntary national standards for public swimming pools and spas that have been developed by the American National Standards Institute [ANSI] and the National Spa and Pool Institute [NSPI]. The minimum sanitary and safety criteria will also be general consistent with current swimming pool and spa ordinances that have been promulgated by Maricopa and Pima counties.

In addition, the proposed rules will authorize the issuance of an abatement order to close a public or semipublic swimming pool or spa or bathing place which is not operated in compliance with the minimum sanitary and safety standards. The proposed rules will also include an inspection provision which provides authority for representatives of the state or county health departments to determine that operational procedures comply with these rules.
